ABOUT ME

I am a passionate frontend developer with a year of experience in web development using JavaScript and React. I excel in team environments and continuously update my skills through online courses. I am eager to contribute innovative solutions that benefit society, particularly in accessibility and education.

EDUCATION

TENX IT ACADEMY

- June 2023 – January 2024

WORK EXPERIENCE

IT TIME AGENCY
Frontend Development Intern
3 months (April - 2024 – June2024)

During my internship at IT Time Agency, I gained valuable experience working on real projects in a team environment. I developed skills in:

- Collaborating with team members to find solutions and complete projects.
- Working with APIs and databases, including performing tasks, identifying, and correcting errors.
- Modifying website designs, adding new features, and ensuring functionality.
- Writing clean, efficient code to improve performance.

This experience enhanced my ability to work effectively in a professional setting and contributed to my growth as a software developer.

SKILLS

- JavaScript
- TypeScript
- Next Js
- React.Js
- Redux / Redux Tolkit
- PostgreSQL
- Bootstrap
- Tailwind
- Git Hub

PROJECTS

AUTOZOOM

We developed a website with the team for Avtozoom, a car rental campaign. We've also created a project API integration and admin panel for data entry.

DEZINFECTION

Developed a website for a disinfection service, featuring a contact form that sends user inquiries directly to a Telegram channel.
